**The National Secretary General
All People Congress,
11A Railway Line,
Brookfields Freetown, Sierra Leone**

Dear Sir,

**REPORT ON THE ANALYSIS OF WARD RERUN ELECTION RESULTS FOR
WARDS [248](#), [249](#), [250](#) IN CONSTITUENCY [068](#); WARDS [254](#) AND [255](#) IN
CONSTITUENCY [073](#); AND WARD [235](#) IN CONSTITUENCY [075](#)**

We, the Regional and District Executives Representatives, respectfully submit this report analysis of the Ward Rerun Election results recorded in Wards [248](#), [249](#), and [250](#) in Constituency [068](#); Wards [254](#) and [255](#) in Constituency [073](#); and Ward [235](#) in Constituency [075](#) conducted on Sunday the 24th of May, 2026 in Portloko District.

The purpose of this report is to provide an assessment of the conduct of the process, stakeholder participation, and the overall outcome observed within the aforementioned wards.

The Regional Executive, District Executive, and stakeholders observed the following:

- The electoral process was conducted peacefully across the affected wards Within the respective constituencies.
- Party agents and stakeholders were granted the opportunity to monitor and observe the process from commencement to conclusion.
- Voting procedures, counting, and tabulation were carried out openly in the presence of party representatives, observers, and community stakeholders

including aspiring candidate.

- There was no major report of intimidation, violence, manipulation, or obstruction that could substantially affect the credibility of the outcome.
- The declared results reflected the votes cast at the various polling stations as verified by polling agents and stakeholders present.
- The process was generally adjudged by stakeholders to be free, fair, transparent, and credible.

We also observe that, The Five Presiding officers granted access to observers, party stake holders, party agents, and other accredited personnel to take photographs of the result reconciliation (RR) forms immediately after the announcement of the results. However in the case of ward 249 in Constituency 068, the presiding officer did not grant access to observers, party agents, and other stakeholders to photograph the RR Forms after the declaration of result. The only Exception was the police personnel at the center who insisted on taking photographs of the RR forms stating that they were required to submit reports to their superior authorities. This incident was specifically observed and reported in ward 249, constituency 068.

Sir, Based on the analysis conducted and the reports gathered from polling agents, executives, and stakeholders across the six (6) wards within the three constituencies stated above, we hereby affirm that the process was free and fair, and that the declared results substantially reflected the will of the people.

Please Find attached Report for the Ward Rerun Election Result Analysis.
